Sekolah Menengah Kebangsaan Trolak, Sungkai, Perak **(Jan 2014 - Dec 2018)**

Malaysian Certificate of Education (SPM)
2A 2A- 3B+ 2B

WORKING EXPERIENCE

Freelance Graphic Designer **(Jan 2025 - Present)**

- Corporate & Event Branding Assets: Conceptualized and designed high-impact visual assets for corporate programs and events using Adobe Illustrator and Photoshop, including Banners, eBackdrops, Roll-Up Buntings, Certificates, Pocket Files, and Mock-Up Cheques.
- Custom Apparel & Merchandise Design: Engineered custom-tailored apparel layouts and merchandise graphics, successfully designing team sports jerseys, corporate shirts, custom caps, and promotional T-shirts according to technical production specifications.
- Social & Wedding Stationery Customization: Created elegant and personalized custom layouts for wedding events, managing end-to-end designs for wedding welcome boards, custom event stickers, and bespoke promotional items.
- Client Collaboration & Deliverables: Managed independent client pipelines, handled end-to-end design iterations based on client briefs, and ensured final files were delivered on time in high-definition print-ready formats.

Globaliot Sdn. Bhd. **(Oct 2026)**

Freelance Software Developer

Client Project: Kunak Refinery (Sawit Kinabalu Group)

- Laboratory System Development: Developed five laboratory modules for Kunak Refinery through a freelance engagement with Globaliot, covering Plant QC, Storage Tank QC, Water Analysis, Cooling Water Treatment and LP Boiler Wet Storage.
- User Interface & API Integration: Built interfaces using Vue 3, TypeScript, and Vuetify, integrating APIs to create, retrieve, update, and delete laboratory readings, chemical dosage records, and remarks.
- Data Validation & Reporting: Implemented date and shift filtering, input validation, and quality control limit displays to support laboratory data entry and review.
- PDF Report Generation: Developed downloadable reports using jsPDF and AutoTable, including daily readings, average calculations, tester details, and separate remarks and recommendations sections.

BNP Training And Advisory Sdn. Bhd. **(Jun 2026 - Present)**

Program Coordinator

- Program Coordination: Served as Program Coordinator, leading and supervising a team of facilitators, managing participants and large-scale onboarding, and overseeing ground operations to ensure overall program success.
- Requirements Gathering & Technical Liaison: Acted as the primary bridge between the Program Manager and system developers, translating business and event needs into functional technical specifications to develop an integrated system for real-time visualization and management of overall program data.
- Database Management: Maintained, structured, and updated program databases to guarantee data consistency and accurate reporting.
- Multimedia Production: Edited and produced video content for event highlights and program documentation to boost participant engagement.

SMK Syeikh Abdul Ghani, Bidor, Perak **(Oct 2025 - Dec 2025)**

SPM Exam Invigilator

- Operations & Examination Management: Assisted in managing the smooth execution of the national SPM examination by strictly enforcing Ministry of Education (MOE) guidelines, managing candidate attendance, and ensuring academic integrity.
- Data & Document Administration: Verified, structured, and updated candidate information databases and examination scripts to prevent discrepancies and ensure absolute data consistency before submission.
- Crowd Control & Communication: Managed large-scale candidate engagement and logistical updates by executing clear announcements, coordinating seating arrangements, and efficiently handling queries from students and invigilators.

Boss Seven Engineering Sdn. Bhd. **(Aug 2023 - Sep 2023)**

Program Coordinator

- Database Management: Maintained, structured, and updated participant databases for the Tunas Usahawan Belia Bumiputera (TUBE) Programme under SME Corp to ensure data consistency.
- Mass Communication: Managed large-scale participant engagement by executing blasting messages and coordinating program updates efficiently.
- Administrative Support: Drafted and prepared official program letters, documentation, and handled technical Q&A support to assist participants throughout the project.

TRAININGS

Industrial Training, FELDA Wilayah Trolak **(Mac 2024 - June 2024)**

- Full-Stack Development: Developed a dynamic Hall Booking System using HTML, PHP, JavaScript, CSS, and MySQL, including user authentication, session management, and comprehensive system testing (Unit, Integration, and UAT).
- Database & Graphic Design: Managed participant databases for the SME Corp TUBE Programme and utilized Adobe Photoshop and Adobe Illustrator to design official event backdrops and promotional assets.

Industrial Training, Uitm Tapah **(Sep 2021 - Feb 2022)**

- Web Application Development: Collaborated in an Agile team to develop the Industrial Training Portal using HTML, CSS, PHP, and JavaScript, streamlining internship applications and coordinator workflows for students and lecturers.
- AI Data Annotation: Annotated and evaluated over 4,000 cryptocurrency sentiment statements (Bitcoin, Ethereum, Litecoin, Ripple) on a scale of -1 to 1 to support Artificial Intelligence (AI) model training.
